

4) Transfer Patients

- a) Medication maintenance consumers enrolled in programs other than IMAT may request approval for transfer to and enrollment in IMAT. Individuals requesting approval for transfer must work with their home program to ensure that all appropriate records are copied and sent to IMAT for review. *The transfer application process begins when the consumer's home program contacts IMAT.* Documentation forwarded to IMAT should include admission documents including verification of addiction, physical and health history.
 - 1) Recent assessment, diagnosis, summary and treatment recommendations.
 - 2) Dosing and other medication records for previous 60 days.
 - 3) Current Treatment Plan.
 - 4) Courtesy dosing request for up to 30 days to accommodate application requirements

- b) Transfer patients will be required to dose on-site for the first 60 days following admission to IMAT. **Limited** exceptions to the 60 day period may be approved to facilitate employment. Transfer patients who have previously qualified for take-home privileges may request a return to the previously approved dosing schedule following 60 days of MMT at IMAT, but under no circumstances is a return to the previous take-home schedule guaranteed. Criteria for evaluating a return to the previous schedule include: adjustment to new program (attendance, urinalysis, cooperation, and communication), ability to support self and/or family in new community, completion of required activities or tasks.

- c) IMAT may deny approval of a transfer when, in the best judgment of the clinical staff, the transfer is not in the best interest of the consumer or because IMAT cannot meet the needs of the consumer at the time.

IMAT Telehealth Consent and Safety Plan

CONSENT FOR TELEHEALTH CONSULTATION

1. I understand that my counselor supports use of telehealth consultation.
2. My counselor explained to me how the technology that will be used to affect such a consultation will not be the same as a direct client/counselor visit due to the fact that I will not be in the same room as my provider.
3. I understand that a telehealth consultation has potential benefits including easier access to care and the convenience of meeting from a location of my choosing.
4. I understand there are potential risks to this technology, including interruptions, unauthorized access, and technical difficulties. I understand that my counselor or I can discontinue the telehealth consult/visit if it is felt that the connections are not adequate for the situation.
5. I have had a direct conversation with my provider, during which I had the opportunity to ask questions in regard to this procedure. My questions have been answered and the risks, benefits and any practical alternatives have been discussed with me in a language in which I understand.
6. I understand that the appointment will be conducted through the use of a 42 CFR and HIPPA compliant interactive video, audio, and telecommunications technology. Facetime and social media app communication platforms are not 42 CFR and HIPPA compliant and therefore unable to be utilized for telehealth.
7. I understand my counselor will provide me with a secure link for visual telehealth appointments.

CONSENT TO USE THE TELEHEALTH BY RINGCENTRAL SERVICE

2. Telehealth by RingCentral is NOT an Emergency Service and in the event of an emergency, I will use a phone to call 911.
3. Though my provider and I may be in direct, virtual contact through the Telehealth Service, neither RingCentral nor the Telehealth Service provides any medical or healthcare services or advice including, but not limited to, emergency or urgent medical services.
4. The Telehealth by RingCentral Service facilitates video/audio conferencing and is not responsible for the delivery of any healthcare, medical advice or care.
5. I do not assume that my provider has access to any or all of the technical information in the Telehealth by RingCentral Service – or that such information is current, accurate or up-to-date. I will not rely on my counselor to have any of this information in the Telehealth by RingCentral Service.
6. To maintain confidentiality, I will not share my telehealth appointment link with anyone unauthorized to attend the appointment.

7. Clients must be fully clothed and presentable as if they were in an office setting.
8. Clients may not be using or under the influence of any type of substance such as alcohol or cannabis during the appointment.
